01/2020 -
06/2021

**PT. INTEGRASI LOGISTIK CIPTA SOLUSI
System Development And ETL Engineer**

- Making Pelindo 2 payment system services (tech used tibco bw, tibco administrator, tibco messaging services, SAG, oracle, sql server)
- Making Pelindo 2 autogate system services (tech used tibco bw, tibco administrator, tibco messaging services)
- Sistem Indonesia Single Window - Kementrian Keuangan (tech used node js, rabbit mq, postgresql, mongo db, elastic search, socket io, jasper reports, kong, react native, react js, docker, kubernetes, kibana)
ETL Engineer

- Making Pelindo 2 payment system services (tech used tibco bw, tibco administrator, tibco messaging services, SAG, oracle, sql server)
- Making Pelindo 2 autogate system services (tech used tibco bw, tibco administrator, tibco messaging services)
- Sistem Indonesia Single Window - Kementrian Keuangan (tech used node js, rabbit mq, postgresql, mongo db, elastic search, socket io, jasper reports, kong, react native, react js, docker, kubernetes, kibana)

05/2019 -
01/2020

**PT. deGadai Solusi Utama
Fullstack Developer**

- Creating a mobile version of the Degadai Application for Partners (tech used react native, laravel 7, mysql, sqlite, elastic search, docker, kubernetes, python for OCR, Face Detection, NLP)
- Creating a mobile version of the Degadai application for customers (tech used react native, laravel 7, mysql, sqlite, elastic search, docker, kubernetes, python for OCR, Face Detection, NLP)
- Creating a dashboard version of the Degadai Application for Partners (tech used vue js, laravel 7, mysql, sqlite, elastic search, docker, kubernetes, python for OCR, Face Detection, NLP)
- Creating a dashboard version of the Degadai Application (tech used vue js, laravel 7, mysql, sqlite, elastic search, docker, kubernetes, python for OCR, Face Detection, NLP)

03/2011 -
01/2012

Kalbis Institute

Assistant Lecturer

- Teach students how to make games with unity
- Teach students about project management
- Teaching students about object oriented programming

09/2018 -
12/2018

ESPAY.IN

Developer API

- making payment gateways such as midtrans (tech used laravel 7, socket io, graphql, elastic search, postgresql)

09/2018 -
10/2019

PT. Jiwa Gelora Juara

Application Developer

- Make various games for children based on Android using the Construct 2 game engine
- Creating a video-based e-learning system for children based on Android using the Construct 2 game engine
- Provides an embed feature that contains school management built with PHP
- Membuat Restful API sebagai back-end menggunakan Codeigniter yang menyediakan data untuk aplikasi mobile yang dibuat, seperti data score game, data user, data e-learning, dan lain-lain

07/2018 -
09/2018

BLACKSTONE DIGITAL AGENCY

Web Developer

- Creating a liza studio marketplace (tech used django, sqlite, postgresql)
- Creating a Fullhardy marketplace (tech used django, sqlite, postgresql)

01/2017 -
01/2019

Koperasi SAN-YOS Mitra Sejati

Software Engineer

EDUCATION

09/2015 -
09/2019

Bachelor's degree, Information Technology

Kalbis Institute

SKILLS

- Machine Learning
- Python
- Node.js
- Natural Language Processing
- Computer Vision
- Project Management
- Swagger UI
- Django
- React Native
- React Js
- Flutter
- Vue Js
- PHP (Laravel)
- RabbitMQ
- Docker
- C# Asp.net
- Java
- Unity
- Elastic Search
- Github/Gitlab
- Jira, Clickup, Trello
- Golang

PROJECTS

010/ 2018 - 12/2018	Company Profile Tech stack is used laravel 7, mysql, react js
05/2018 - 08/2018	Game Edukasi Anak 3D dengan Unity 3D Tech stack is used unity, c#, mysql, socket io
04/2018 - 08/2018	Sistem Pakar THT Tech stack is used java spring, mysql
03/2018 - 06/2018	Aplikasi Perpustakaan SD, SMP, SMA ST. Antonius Tech stack is used C#, Asp.net, mysql
01/2018 - 06/2018	Management Document Tech stack is used java native, mysql
01/2018 - 04/2018	E-Voting HIMIF Tech stack is used laravel 7, mysql
02/2018 - 03/2018	Sistem Manajemen Restoran Tech stack is used laravel 7, mysql, react js
08/2017 - 11/2017	BODC Cyber Tech stack is used Electron Js, mysql, codeigniter 3
04/2020 - 07/2020	Web Gereja Santo Yoseph Tech stack is used mysql, codeigniter 3
108/2016 - 03/2017	Sistem Penggajian Karyawan tech stack is used laravel 7, mysql, postgresql, elastic search, docker,
